

before the law was passed, we would receive phone solicitation calls through out the day and sometimes late at night. it didn't matter what time it was, and we have kids that are in school and need their sleep. since it was passed, the calls have almost stopped. this allows us to spend more time with our children and less time answering the phone. if they want their information to reach us, they should send it to us. then we can look at it if we want. and contact them if we want their products or services.
